Reference letter

Dear sir or madam,

By this letter, we confirm that Dmytro Bepalov contributed to the CANactions School for Urban Studies as a tutor of Module 2.2 (Project-based): Spatial DATA analysis and Digital Infrastructure (November 9-12) in the framework of Advanced Studies in Integrated Urban Development Program. This Module was aimed at introducing students a specific technological concept and train them to use it on a daily basis through a series of practical tasks.

The students, who are working professionals from different Ukrainian cities, were divided into 5 groups, each with a specific topic: Household Mobility Survey, Transport Analysis Zones (TAZ) and City Socio-Economic Statistics; ITS team analyzed the FCD data of Kyiv public transport, Field Survey team measured passenger traffic using TransitWand App, Road Safety team made a visualization of the accident statistics for Kyiv. Mr. Bepalov led the work of all five groups.

The Module's outcomes were a set of research surveys, performed with the use of digital technologies and dealing with the topic of mobility and accessibility.

We express our gratitude to Dmytro Bepalov for this collaboration and for the excellent Module results.

Best regards,

President CO CF CANACTIONS

В.В.Зотова
